

LEADERSHIP ACADEMY (ANCLA)

TRAINING PROGRAMME January - December 2016

Do your best to present yourself to God as one approved, a worker who has no need to be ashamed, rightly handling the word of truth. (2 Tim 2:15)

The strength of a chain is determined by the strength of its weakest link. The All Nations Centre requires leaders with both skillfulness of hands and integrity of heart to continue on our relentless mission to serve the present age and fulfil our calling. This means that every leader must seek to continue on a spiritual growth pattern of life. This training programme will help you in this process. The avowed aim of the ANC leadership is to move from good to great in our journey to authenticity. This requires a deliberate and concerted approach at both individual and corporate level.

As a church we seek to reach more people and transform more lives; to attain increase within a culture of discipline. Having effective leaders is a major key in this process. The importance of good management and leadership skills to the future development of the ANC cannot be overstated. The aim of ANCLA is therefore to operate an effective leadership-training programme to support the mission and strategy of the church.
